

NAM COVID-19 Update
April 28, 2020

We are aware of the technical hurdles that some applicants have experienced when seeking funding through the Paycheck Protection Program, which relaunched yesterday morning, and the NAM will continue monitoring the program's rollout.

You can let us know about your experience with the PPP by reaching out to our Response Team at responseteam@nam.org. You can also continue accessing the Small Business Administration's PPP resources [here](#) and the NAM overview of the program [here](#). We will share additional resources and information as they become available.

Power of Small Newsletter

On a related topic, this Friday, the NAM will begin providing our small and medium-sized members with a new "Power of Small" weekly newsletter. It will be a collection of the most recent small business resources, best practices and actionable intelligence for companies on everything from loan programs and regulatory changes to workforce strategies. It is our hope that it will be another valuable resource for members.

If your company is looking for ways to contribute to COVID-19 relief efforts, we encourage you to email our Response Team at responseteam@nam.org with any N95 or Tyvek suit donations. You can connect with NAM partner [Good360](#) to donate items to families. Please reference the NAM as your source of referral so we can track the many positive contributions of our members.

Your NAM will continue sharing the stories of how manufacturers are leading our country out of this crisis, as I did on [Fox Business](#) yesterday—and we'll keep advocating for policies, like [liability protections](#), that allow manufacturers to help lead America forward.

Please keep visiting the regularly updated nam.org/coronavirus site for the latest information, including our policy plans and state-specific resources.

Best,

Jay

President and CEO
National Association of Manufacturers
