

ENVIRONMENTAL ADVANTAGES OF POLYCARBONATE

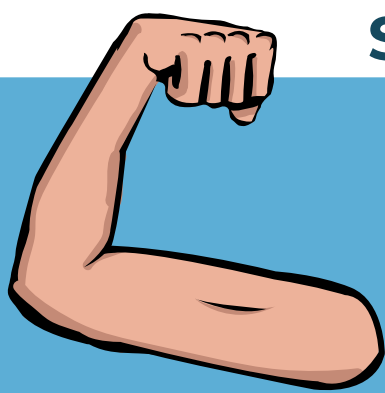

GLASS

POLYCARBONATE

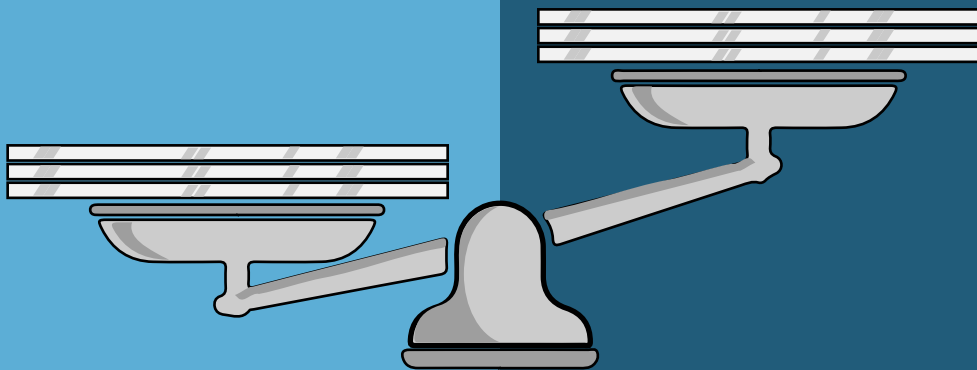

1

STRENGTH

x200

WEIGHT

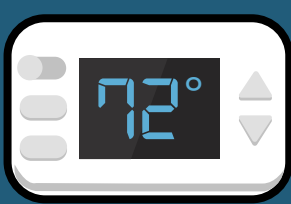

50%

UV PROTECTION

100%

INSULATION

Reduce Waste in Landfills

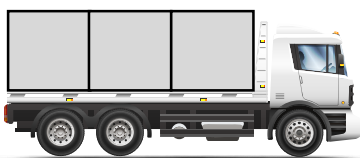

Conserve Oil & Non-Renewable Energy

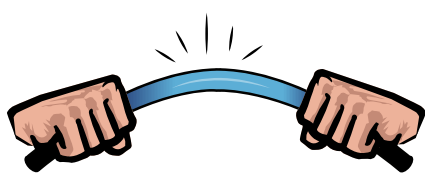

Reduce Gas Emissions

- Polycarbonate containers reduce fuel consumption during transportation

- Polycarbonate windows are 40% lighter

- Polycarbonates improves vehicle fuel efficiency by 6-8%

Flexible

Improved Energy Efficiency

Reduced Greenhouse Gas Emissions

Lowered Carbon Footprint

High Level of Damping

Reduced Overheating
