Dear Chairmen and Ranking Members:

As the new Congress confronts the challenge of reforming the tax code to make American businesses more competitive, the undersigned organizations representing millions of employers organized as S corporations, partnerships and sole proprietorships offer the following three principles to help guide your efforts.

First, tax reform needs to be comprehensive. Jobs in the United States are evenly divided between corporate and pass-through employers, with nearly 70 million private-sector workers employed at S corporations, partnerships and sole proprietorships. To ensure that we avoid harming these critical employers, tax reform needs to be comprehensive and improve the tax code for individuals, corporations and pass-through businesses alike.

Second, Congress needs to reduce the tax rates paid by individuals and corporations to similar, low levels. The fiscal cliff negotiations in 2012 resulted in pass-through businesses paying, for the first time in a decade, a significantly higher top marginal tax rate than C corporations. Splitting business income and taxing it at different rates penalizes pass-through businesses and encourages planning to circumvent the higher rates, ultimately resulting in wasted resources and lower growth. To ensure that tax reform results in a simpler, fairer and more competitive tax code, Congress needs to reduce top tax rates for all types of taxpayers.

Third, Congress should continue to reduce the double tax on corporate income by integrating the corporate and individual tax codes. A study by Ernst & Young made clear that the tax treatment of pass-through businesses, and the single layer of tax they face, results in higher levels of investment, employment, and wages than if all American businesses were subject to the harmful double corporate tax. A key goal of tax reform should be to continue to reduce the incidence of the double tax and move towards taxing all business income only once.
By embracing these broad concepts, Congress can move the taxation of business income in a direction that helps all employers, regardless of how they are organized, to invest and create jobs here in America.

We appreciate your consideration of these priorities.

Sincerely,
