IAPD Applications Fly-In June 6-7, 2018 Washington, DC

About the Event

IAPD is hosting an IAPD Applications Fly-in in Washington, DC, on June 6-7. The event is designed to give our legislators a look at the many ways in which performance plastics are being used in key industries.

The event will kick off with a dinner for IAPD member attendees on June 6. The events on June 7 include a breakfast briefing, one-on-one meetings with legislators, an applications showcase and reception.

Meeting with Legislators

IAPD will schedule one-on-one meetings with senators and/or representatives in your state or district. These meetings are designed to introduce you to your representatives, educate them on the performance plastics industry and your company and discuss important legislative matters that may affect your company or the industry.

Applications Showcase

IAPD has reserved space in the Rayburn House Office Building on Thursday, June 7 and will host a reception for members of the House of Representatives and their legislative staff.

IAPD members will showcase eye-catching displays of performance plastics applications as they are used in any of the Top 26 Markets.

Tables will be set up to showcase the applications. Members are responsible for all costs for shipping, setting up and dismantling their applications.

Making it a Success

The success of this event depends on having the right people, companies and displays to best promote the performance plastics industry. The applications should be scale models, interesting, easily identifiable uses of performance plastics. Since we want people to stop, look, ask questions, and in general, find the displays relatable, they must be interesting. It is not enough to display semi-finished parts.

Who May Attend?

Any member of IAPD may attend the event. You may attend the event to participate in the meetings with legislators only, be there to host the display for the application showcase, or do both. We need IAPD members who are subject matter experts in the markets and applications — and are comfortable representing your company and the industry — to talk about the performance plastics industry during the showcase or one-on-one meetings with legislators.

The following will be provided for the application display:

- One 5' table for each of the markets represented (no pipe and drape will be available)
- Signage promoting Performance Plastics and the markets represented

If you are interested in displaying an application, please provide:

A description of your application

Dimensions of your application

What market best describes your application?

Any companies wishing to display an application must ship the materials to Haute Catering 5-7 business days prior to the event. Haute Catering handles the logistics of getting your shipments through security and will deliver your materials to the Rayburn House Office Building on June 7. There is a \$90 delivery fee applicable to all shipments received and an additional fee of \$25 will be applied per box received. These fees will be charged back to your company after the event. At the conclusion of the reception, each company with a display will be responsible for packing it up and affixing prepaid shipping labels to their boxes. A courier will collect the materials and take them to FedEx for you.

If you would like to have signage with your branding, we recommend that you bring pull-up banners with your company logo and any additional information.

Please contact **Liz Novak, CAE, at (913) 345-1005** with any questions.

Yes, I am interested in displaying a performance plastics application!
