FOR IMMEDIATE RELEASE

IAPD Welcomes New Member Munsch USA

OVERLAND PARK, KS – The International Association of Plastics Distribution (IAPD) is pleased to announce that Munsch USA, an associated products and services company, has joined the association. The company offers a diverse range of plastic welders for work with a wide variety of thermoplastics. Their product line includes machines for container engineering, landfill construction, welding shoes and specialized solutions, such as integration into automated and semi-automated production facilities. Munsch USA is located in Placerville, CA, USA and more information is available at www.munschwelding.com.

"I am pleased to welcome Munsch USA, Inc. as a new IAPD member," said IAPD CEO Susan E. Avery, CAE. "IAPD represents the plastics distribution supply chain and most importantly, champions the use of plastics in applications and the use of distribution as the way to market. Associated Products and Services members offer invaluable resources, products and services to the plastics distribution industry. Through their participation in IAPD, they will be provided access to the most important market players in the supply chain and access to the thought leaders in the plastics distribution industry."

About IAPD

The International Association of Plastics Distribution (IAPD), established in 1956, brings together distributors, fabricators, manufacturers, manufacturers' representatives, recyclers and service providers in an environment which encourages a free flow of ideas and information that help members build their businesses. Every program and service we provide is designed with the simple goal of helping our members increase profitability. Membership in IAPD is an affordable business investment. IAPD provides training, connections with customers and suppliers and information about developments that impact the industry. What makes IAPD unique is a commitment to educating customers and other key end-users about plastics. In other words, IAPD works with members to build the demand for plastics. Central to this effort is the reinforcement of the value of distribution. For a full description of membership benefits and to download an application, visit www.iapd.org/join_renew/membership_benefits.cfm.
